## Sutherland And Boyce Are Fired

Washington, April 25—United States attorney John J. Boyce, and United States Marshall Dan Sutherland were summarily removed from office under charges late Saturday afternoon. Boyce was removed for securing indictments on flimsy charges against three citizens of Juneau, C. M. Summers, Henry Shattuck and C. F. Cheek. Sutherland was involved in the same trouble. John Rustgard was appointed to succeed Boyce, and Herbert Faulkner to succeed Sutherland.

The charges were preferred last fall. A hearing was granted the accused officials by the department of justice, and the hearing was held during January and February. In possession of the facts, it was of course, impossible that the department of justice retain them in office.—Record.

## New Cannery Boss

C. C. Harris has been appointed superintendent of the Santa Ana cannery to succeed Claude Hantorne, who has been placed in charge of the Hunter's Bay cannery. The Santa Ana cannery is making preparations for a capacity pack this year.

## Engstroms New Building

During the past week Adolph Engstrom bought a strip of land from "Bill" Lloyd making his lot now eighteen feet in width. He has had his foundation increased to cover the entire width of the lot, and the new building will be 18x40. It will be two full stories in height. Adolph says that he intends to increase his stock when he moves into the new building, and from then on conduct a general merchandise store. It will not be as big as some of them of course, but the stock will all be new, and the prices such that the goods will not stay on the shelves very long.

## A NEW DOCTOR ARRIVES

Leonard P. Dawes, M. D., was a passenger up from Seattle to Wrangell on the Dolphin, last Sunday. Dr. Dawes comes from Chicago, where he has been practicing medicine for several years. Graduating from the College of Physicians and Surgeons of the University of Illinois, he received his degree in 1905. In addition to his college work he has had five years of hospital work under probably the best surgeon in the United States, Prof. A. J. Ochsner, at St. Mary of Nazareth's Hospital, Chicago. Also for several years he has occupied the position of Assistant Professor in the College of Medicine and Surgery, University of Valparaiso, Chicago, where he made a specialty of diseases peculiar to women.

While visiting the Pacific Coast last year, he was so favorably impressed with the possibilities of Alaska that he decided to make his home in the district. Since that time he has been in correspondence with those interested, and his coming to Wrangell is the result. He has secured rooms for his office in the Wheeler Block, over the Wrangell Drug Store, which he is remodeling and will have ready for business within a day or two.

## New Lights Ordered

By early fall the inside passage will be as carefully marked with aids to navigation as any other stretch of water in the world frequented by ships. In every locality where danger lurks from protruding rocks an acetylene gas light will be established. There will be 11 of these big beacons and they will blaze forth only at night, warning the approaching mariners not to venture too near. While a decision to establish these aids in Southeastern Alaska was reached some time ago, the first public announcement of the exact locations chosen for them was made recently which are as follows.

Strait Island, Sumner Strait; Vank Island, Stikine Strait; Rocky Island, Icy Strait; Round Point, Zarembo Island; Portland Island, Stephens' Passage; Point Gardner, Chatham Strait; Point Young, Stephens' Passage; Eye Opener reef, Sumner Strait; Busy Island, Clarence Strait. The lights will be installed under the direction of Major Jay J. Morrow, who has succeeded Major J. B. McIndoe as lighthouse engineer of the district.

## Big Gasboat Coming

The Shakan Salmon Co. has decided not to put their steamer, the Prospector, into commission this season, and are sending up a fine new gasoline tender to take her place. The new boat is 75 feet in length, and is equipped with a 75 horse power motor. She will be employed here during the fishing season and then taken to the Sound where she will be employed during the winters.

## The Gedney Coming

The coast and geodetic survey for Alaska will have six boat in the field this year. The Gedney will again operate in this region under the direction of Captain Derickson. It is expected she will be here by the first of May. Her first work will be in making a thorough survey of Tongass narrows, with a view to preventing another disaster like that of the Ohio. She will go thence to Cordova Bay and Trevak bay, on Prince of Wales Island, and complete the surveys in those vicinities.

## Among The Launchmen

The fine weather is starting the bug to kicking in the bonnets of the local gasboat men. Jeff Casson has almost completed the work of remodeling the launch recently purchased by him. He has changed the cabin accommodations and materially improved the boat generally. Within the next few weeks he expects to sail with Darby Choquette as captain, cook and deckhand, for the new town of Portland, at the head of the canal of that name.

Johnnie Kolb has at last actually gotten down to work on that launch of his, and unless he is careful, the first thing he knows he will have it finished. Joking aside, the little craft promises to be a neat appearing boat.

Messrs. Lowery and Woodbridge have purchased Ole Johnson's white rowboat and will use it on a contemplated prospecting trip.

## A SURE WINNER

The Dispatch of Juneau fell all over itself the other evening because word reached it that there was a possibility of Judge Lyons entering the political arena as a candidate for the delegateship from Alaska, and was followed along the same theme by the Ketchikan Miner a day or two later. This paper does not know whether the report, purporting to come from Fairbanks has any foundation on fact, but this is patent, if T. R. Lyons cares to enter the race, it is a cinch that he will win. Here, probably, is the source of worry to our friends—they realize that it would mean the elimination of the man Wickersham. Why shouldn't Tom Lyons be a candidate if he wishes to be? He has the ability, nobody questions that. He has the integrity, even those who oppose him have been and are unable to find the smallest fault with his record. He has a record of which any man might well be proud both as a practicing lawyer, and since he took the bench, and so well are these facts known that if he allows his name to go before the voters of Alaska, he will be the next "Gentleman from Alaska" in the halls of Congress. Not ev-

en "Flittering Wick" himself and all the would-be-pie-eaters he has gathered around him would be able to stem the tide. The matter is in Judge Lyons' hands, no one else will have a word to say as far as the nomination is concerned, the rest will be for the voter to say, and say it he will if given the opportunity. On the other hand there is really no reason why Judge Lyons should allow his name to go before the convention. His office is far greater than that of representative, he is making good and the whole Interior is busy sounding his praises.

## HARD ON FISHERMEN

Delegate Wickersham's bill to increase the taxes on the fishing industry in Alaska, provides that "every male person over the age of 21 years who shall be employed in any branch of the fishing industry in Alaska," shall pay a head tax of five dollars. Wickersham might perform a real service to the fishermen in the district by securing some sort of protection from the rapacious Puget Sound dealers. Instead, he proposes to impose new burdens upon those who wrest a precarious living from these icy waters.—Record.

The Dawson News has moved into its new home and says, "We are here to stay and will be here after Halley's comet has come and gone." Here's hoping.

Price, large bottle, 100 full doses \$1.00—and well worth it, too. It's better to take no medicine at all than to depend upon cheap concoctions that are compounded to sell at a low price and a big profit just because there is a large demand for certain remedies at certain seasons of the year.

Nyal's Spring Sarsaparilla purifies the blood, arouses the torped liver, drives out all impurities, cleanses and tones up the system, and helps nature throw off the dullness that comes from the indoor life of winter. It arouses energy, brightens the eye, clears the brain, gives lightness to the movements.

### Riverboatmen Strike

Word comes from Pt. Simpson where the Hudson's Bay river fleet wintered, that the native boatmen had gone on strike for higher wages. They had been getting \$50.00 per month and asked for \$55. This was granted them, but within a week they came back at the company for \$5.00 per month more with the result that hereafter nothing but white men will be employed.
